Book Description

The story of how Noah built his ark and saved the world's animals from the Great Flood is one of the most endearing tales in the Bible. The 80-page illustrated book in this kit recounts the story of Noah's ark, and includes an account of the search for the actual ark on and around Mount Ararat. Detailed diagrams show how to fold Noah, his wife, and two each of doves, turtles, mice, rabbits, rams, rhinos, deer, lions, and giraffes. A punch-out model ark is also included, so that you can set up your very own diorama with the finished origami pieces.
